## Summary

I am a full-stack software engineer with experience in JavaScript (Many of its frameworks), TailwindCSS, Bootstrap just to name a few. I am also proficient in Docker containers orchestration and managing Docker containers. I am also versed with UI/UX designing using Figma and graphics design using multiple tools (Canva for example). I am a quick learner and am always eager to learn new techniques. I am also a problem solver and am able to think critically and creatively to solve problems. I am confident that I have the skills and experience necessary to be successful in your company. I am a hard worker and I am always willing to go the extra mile. I am also a team player and I am able to work well with others.
